

# Nelson, Do You Believe In Religion?

Desert messiah ain't nothing new - we all know his kind  
Another self-appointed prophet with world domination  
On his puny mind

Whispered scenes behind closed doors  
How does one make the people think  
His greed's worth dying for?  
Hey, let's start a holy war!!!

Chorus:  
Do you believe in religion?  
I believe it's your decision  
Do you think it makes a difference?  
Is it just some man-made vision?  
Do you believe in religion?  
I believe it's your decision  
Do you think it makes a difference?  
Do you really care any way?

Midnight preacher calls me a sinner  
And maybe he's right  
He said he's just used the hot line  
And God's got a message for me  
He says  
He condemns my situation if I wanna find salvation  
It's time to phone in my donation as a vow of faith  
He tells me that the church has got an image to protect  
And god wants me to give - give till it hurts

Stayed me hand - it's just as well  
They caught him using God's tax-free cash  
To feed the kitty in some cheap motel  
And now he's going to hell

Chorus

(Solo)

Chorus
