

Nelson, Forever Isn't Long Enough

Every day I still can't believe that you're mine
In every way, you're all I need for all time
It's so easy to see forever isn't long enough for me

Every kiss lights up my heart like a flame
And every wish on each night's first star is in your name
It's so easy to see forever isn't long enough for me

I could love you for a million years
But I'd still beg for ten million more
From this moment 'till the end of time

I'll be eternally yours

I could love you for a million years
But I'd still beg for ten million more
From this moment 'till the end of time
I'll be eternally yours

Every night I whisper a prayer to God above
To keep you with me, 'cause forever just isn't long enough
You're the air that I breathe, and forever isn't long enough for me
