

Nelson, One Of The Things About You

Yeah, one of the things about you that drives me crazy
Is the way you drive me crazy every day
Yeah, it makes me mad about you
I don't know what I'd do without you
And that's one of the things about you that drives me crazy

Yeah, one of the things about you that makes me love you
Is the way I love you more as time goes by
Yeah, the feeling keeps getting stronger
It just keeps lasting longer
And that's one of the things about you that makes me love you

Don't know much about rocket science
Don't know much about chemistry
I can't explain it-can't define it
All I know is I'm out of this world when you kiss me
(you) send me into orbit now 5,4,3,2,

One of the things about you and me together

Is the way we go together oh so well
Yeah, it's just like a sweet duet
Ever since the day we met
And that's one of the things about you and me together

Don't know much about rocket science
Don't know much about chemistry
I can't explain it-can't define it
All I know is I'm out of this world when you kiss me
(you) send me into orbit now 5,4,3,2

Yeah, one of the things about you that drives me crazy
Is the way you drive me crazy every day
Yeah, it makes me mad about you
I don't know what I'd do without you
And that's one of the things about you that drives me crazy
That's one of the things about you that makes me love you
That's one of the things about you and me together
