

Nelson, She's Gone

She is gone
But she was here
and her memory is still heavy in the air
oh what a taste
of human love
now she's gone and it don't matter anymore

Passing dreams
in the night
and it was more than just a woman and a man
it was love
without device
and my heart will never be the same again

She is gone
but she was here
and her memory is still heavy in the air
oh what a taste
of human love
now she's gone and it don't matter anymore
