

# Nelson, Sunset Strip

A place like this - a girl like you  
Is all I need to get me through  
I'm hypnotized when you take the stage  
Table dance my blues away

From Officer Easy to Little Bo Peep  
She's a master of disguise  
She's sugar and spice, she's naughty and nice  
And she can read my dirty mind

Chorus:  
C'mon little honey, walk this way  
Strut your stuff in that lingerie  
That's right, pretty momma  
Give me your sunset strip  
Tease me, please me, help me unwind  
And I'll feed your pretty kitty one buck at a time

Bump it - grind it - blow me a kiss  
I'm at your mercy when you do that sunset strip

You're a feast for hungry eyes  
You could make a grown man cry  
You're in control of every man  
Your every wish is my command

If Calamity Jane doesn't drive me insane  
Nurse Nympho is sure to please  
Then Little Annie Fannie's gonna rock me to my knees

Chorus

Keep this up and I'll blow my lid  
You make me explode when you do that sunset strip  
Your sunset strip has got me goin' crazy  
(Take it off!!!)

Oh yeah - it's just another night out with the boys  
Oh baby - bring on those dancing girls  
Yeah - we're all gonna leave here broke, drunk, and horny  
Oh, I love you, I love you, I love you!

Chorus

I've been around the world and you're the best there is  
You make me feel like a king  
When you're queen of the sunset strip  
(Take it off!!!)

The sunset strip has got me goin' crazy! (Take it off!!!)
