

Nena, Conversation

(Chorus)

Different people in a different world
Take your time before you talk to me
Because we're different people
In a different world
Where is the conversation
Different people in a different world
Come on give a little love to me
Because we're different people
In a different world
We need the conversation

Same food, same age, same food
One day we'll meet us on the same stage
Same food, same age, same food
One day we'll meet us on the same stage

Chorus

You've got you, I've got me
Loneliness is a such a drag
All you do I look at you
and there is the conversation

Same food, same age, same food
One day we'll meet us on the same stage

Chorus

You've got you, I've got me
Loneliness is a such a drag
All you do I look at you
and there is the conversation

Chorus

Because we're different people
In a different world
We need the conversation ...
