

Nena, Let's Humanize

We can humanize
The value of our lives
With the power of our feelings

Boys are blue
And girls are pink
Learn to do and not to think
Tied in rope
Wrapped up in ribbon
Dirty up those perfect clothes
Let's humanize

Soldier soldier
March together
One step forward
Two steps backward
To the left and
To the right
Strip away that uniform
Let's humanize
Let's humanize

We can humanize
The value of our lives
With the power of our feelings

Sweet seduction
Painted face
Beauty is
A woman's place
Courtisane or a madonna
Peel away that polished mask
Let's humanize

Sweat and muscle
Bound in leather
Men are free but
Chained together
Lock and key
With their emotions
Hammer down that barricade
Let's humanize
Let's humanize
