

Nena, Oldschool Baby

We are the oldschool, that's the new
We stay right here as we come through
We are the high, that's the low
We keep it real at every show

We are the future, that's the past
We are the moment built to last
We are the up, that's the down
We wear the newschool engine crown

We are the oldschool, that's the new
We stay right here as we come through
We are the high, that's the low
We keep it real at every show

We are the future, that's the past
We are the moment built to last
We are the up, that's the down
We wear the newschool engine crown
