

# Neneh Cherry, Eyes On The Prize

Run run, run run, run run yeah here come  
Run run, run run, run run yeah here come here come.

In the agony of the feet and the thrills of victory  
(come on, come on)  
You know I won't stop trying  
Got my eyes on the prize  
And I'm coming ready to compete  
(come on, come on)  
You know you need to bring it on

In the agony of the feet and the thrills of victory  
(come on, come on)  
You know I won't stop trying  
Got my eyes on the prize  
And I'm coming ready to compete

I know you can do it  
With your heart into it  
If you wanna break great hearts  
You've got to move it  
No time to fall back (fall back)  
When you're on the right track (on the track)  
Want you to keep on pushing  
Got no time to relax

Put the word out tell the streets  
I'm determined with self-belief  
Delving deep inside my core  
Steel my toes no time to pause  
I am the prize getting my rewards  
I'm representing a higher cause  
Move on up we ain't going back  
Keep on pushing don't relax  
Achieving goals ain't easy though  
I share the load with a team of pros  
You can do it putting crazy work  
It's like the race that we came in first

You can do it keep on moving  
You can do it keep improving  
You can do it you won't stop  
You can do it reach the top

I know you can do it  
With your heart into it  
If you wanna break great hearts  
You've got to move it  
No time to fall back (fall back)  
When you're on the right track (on the track)  
Want you to keep on pushing  
Got no time to relax

So I ain't gonna waste no time (waste no time)  
Opportunity comes once in a while (once in a while)

No rest for the wicked if you wanna be a winner  
And if you're gonna run around  
Don't lose cause that's dry  
A habit you can't kick it  
And everyone's a sinner  
And if you're gonna run around  
We'll lose and I'll cry
