

# Neptune 66, Things Will Get Better

Please just stay here one more night,  
I promise you that we won't fight  
All the good things we've been through  
I'm just plain lost when I'm without you.

A month ago things were so great  
A week ago it turn to heat  
How I need you Oh! so bad  
Thinking back on times we've had.

Things will get better  
This won't last forever, we just got to get out this hole  
You are my lover I can't have no other  
You are my anti-seminole

I took you out on friday night,  
But something at you wasn't right  
How your eyes looked in to mine  
I thouthgt that everything was fine.

But when i saw you walked away  
My happiness all turn to gray  
You turn around and say goodbye  
And all that I can do was cry

Things will get better  
This won't last forever, we just got to get out this hole  
You are my lover I can't have no other  
You are my anti-seminole (x3)
