

Nesian Mystik, Brothaz

Yes, oh take me back
Oh take me back
Ohh Ohh Ohh

Verse 1

(Te Awanui)

Oh now it's been awhile since last we caught up
Oh collaborate about old times and those schemes that we thought up
Oh laughed about our mums, wooden spoons, hitting us
Coco brown boys (with red bums)
Funny ha just to recollect oh reminisce back then when we were kids.
(Feleti)

My man, we got history running deep beneath the physical
Connecting together, never rolling as individual
Though time separate the flesh
The spirits ain't departed, we still getting started progressing
To catch the wreck
Respect remains mutual, no speech ever need to be spoken
Disconnected affiliation kat you must be joking
It ain't even like we out growing each,
Ever since birth we were placed upon this earth as brothers.

(Te Awanui)

Well I know we said boys up hoes down,
Corse things gon change when the one is found
Backseat to L O V E its all good know that we
Keep it tight for real for life
No matter what communicate for sure
Even though the strife

(Feleti)

I gon be there for you
You gon be there for me
Keep connections tight like family

Chorus

Now bro I be there for you, you hold tight and I'll keep it true(No lie)
In those times of need I'm there indeed
Brother see you don't even have to speak
(Donald)
For real uso I'll be there for you, you hold tight and I'll keep it true
In those times in need I'm there indeed,
Sole see you don't even have to speak

Verse 2

Our bond, be instructable
Testament of friendship is what is known(second whanau)
Man you're like my surrogate aiga
brotherhood uncompromised in times of transition
From that know for real that I got your back
And got that other line when a brother needs to chat
Conversate something sure enough
You ain't even got to hesitate none
(Feleti)

It seems like we were born crew, since the beginning of time
Able to conversate despite not always on the same line
In essence nothing has changed though direct to deviate
You got business to handle
Make no mistake I can relate
Our links be deeper then this whole globe could ever expose
Extended for eternity, the brother hood for ever grows
Together we better, than isolated as solo
Forever never will I allow your friendship to go

Chorus

Bridge

(Te Awanui)

Ya'w shadow if inclined to bare the soul

With Nesian knuckle game control

(Feleti)

Its that joint force connection, clan honour respecting

Endeavor to never sever the bond we're protecting

(Te Awanui)

Black and blue maybe true, colours due

If kats were to step, sabre I'm right beside you

(Feleti)

I pray for blessing everyday of your life

Even when it seems the end of the tunnel don't lead to the light

(Te Awanui)

If ever in need me, you or your family, call a brother

Don't ever pause, don't hesitate to conceive

(Feleti)

Even in the eye of the storm all are warn

Ain't nothing worst than a brothers scorn

(Te Awanui)

United we stand ain't never gonna fall

To the link resillient I'm there for your cause

(Feleti)

United we stand never divide so we never fall

When everything said and done I still provide support

Chorus
