

# Netta, Cuckoo

I wanna change the channel  
But i keep losing my remote  
It's like my favourite show on  
I can predict you every joke  
Got friends, think that i am lucky  
But i bet that you don't know  
That i don't really think so

Chick foods and breadsticks  
No, we don't have to say it  
I like when you're holding my hand  
But i don't feel nothing  
And do i really love you?  
I should really love you
