

# Neuraxis, The Apex

Zenith of power, highest point of glory  
The alpha, the omega, the principle and the end  
Geometric complex, cosmologic concept  
Culminate, like a pyramid ends in a point  
Unfathomable distances, vastness revealed  
Out of nothing comes nothing  
Abstract equations  
The statement of anthropic assumption  
Theoretical prediction  
Relatively trivial, watered-down form  
New level of resonance  
Nucleosynthesis calculation  
Temporal cycles, hidden melody of the stellar regulations
