

# Neurosis, Nonsense

Mislead all along from start to end  
What creates this riddance of guilt ?  
A little here, none over there  
What more is said ?  
The door is shut from the inside  
But who's inside the door ?  
New time, wrong place, wrong face  
To get over there  
Forever spinning in faith  
Unload, leave, state the law  
Expect the rest  
Stumbling down to grovel with the rest of us  
Another life lost  
Just wanted to be  
Not too much  
Fall off the top and splash when you fall  
Eating the beaten path  
Taught the ways of self-destruction  
Questioning to the last
