

Neurosonic, I Will Always Be Your Fool

I believe
every word you've ever spoken
lie to me
with every promise you've ever broken

Just know that I will always be

I will always be
always be your fool
I have always been
always been your fool
I will always be
I will always be your fool
your fool

I have wept
with every bruise you ever gave me
and I have kept
the hope that one day you will save me

Just know that I will always be

I will always be
always be your fool
I have always been
always been your fool
I will always be
I will always be your fool

I will always be
always be be your fool
I have always been
always been your fool
I will always be
always be your fool
I have always been
always been your fool
