

Neurosonic, Until I Die

I know I planted flowers
But look around at all my weeds
I don't play well with others
The thought occurred it might be me

I'm so bitter I can taste it (taste it)

I'm not allowed to leave
But I'm not allowed to stay
Everything is free
But you say I gotta pay

Ask me what I think
'Cause I got a lot to say
I know it's gonna hurt
But there is no other way

I'll try
'Til I die
To break what's yours
And take what's mine

Envy is a problem
And karma knows where you live
You will not consume me
I'll throw you out before I'll give

I'm so bitter I can taste it (taste it)

I'm not allowed to leave
But I'm not allowed to stay
Everything is free
But you say I gotta pay

Ask me what I think
'Cause I got alot to say
I know it's gonna hurt
But there is no other way

I'll try
'Til I die
To break what's yours
And take what's mine (x2)

I won't give in

I know I planted flowers
But look around at all my weeds
I don't play well with others
The thought occurred it might be me

I'll try
'Til I die
To break what's yours
And take what's mine (x2)
