

Neurotica, Invisible Path

Don't ask how don't ask when or why Same somehow pleased just to be a part When
you've found answers don't mean a thing Actions shouting so much louder man Is
this something real I can't say But it's got control of me There's no need to
go frolicking through the written All around same right side up as down Ya see
I can feel it cracking False sense of insecurity Let yourself love let yourself
follow the way When you've found answers don't mean a thing Actions shouting so
much louder man Is this something real I can't say but it's got control of me
