

Neurotica, One Day

I said I wanna be something should I be nothing Could have been anything
realized the main thing I wanna go everywhere while going nowhere Take myself
somewhere I've never been there I think I like it this way better than the
right way Who's To say which way

Hey ONE DAY

Staying with the right side that would be the outside Never keep it inside that
would be the wrong side I should have been someone while being no one Not just
anyone got to have the right one All are dying somehow not knowing just how
Doesn't matter anyway

Hey ONE DAY
