

# Neutral Milk Hotel, Smile For Me

When there's no one else around  
And the world just brings you down  
And the sun starts turning black  
And Nelson's head is in a sack

Won't you smile for me?  
Won't you smile for me?

When balloon just blows up  
And your teeth are in a cup  
And the drugs you bought don't high  
And you only want to die

Won't you smile for me?  
Won't you smile for me?

If the times just make you spit  
And your world is full of shit  
Turn your gray eyes to blue  
And let me have one last look at you

And smile for me  
Won't you smile for me?

Come on, smile  
Come on, smile  
Come on, smile  
Yeah, come on, smile
