

Neve, Absent

There she goes
And she's right on track
She said for now I can't be here
But I'm coming back
And she knows
In the same old sky
That I'll be up within the clouds
Making sure she's fine
And I don't want to be alone
You know I come from a broken home
I just can't do without it

Chorus

Here I go hear me call out after you
Bouncing off of the satellites
A few broken words to get me through this
Letting out what I'm always holding in
Gone away but I'm coming back again
Only you can get me through this
Things may change
And I'll take the blame
But what I am to you
Will remain the same
A fair exchange
When there's nothing clear
To take so many things
That I can't be near
And I don't want to be alone
You know I come from a broken home
I just can't do without it

Chorus

I wake up in your arms
I know inside it's true
Darling do those things you choose
I wake up all alone
I know inside I'm home
But I know it's better
Waiting for so long
There she goes
And she's right on track
I know for now I can't be here

Chorus

There she goes...
