

Never Heard Of It, Veronica

Veronica
by Never Heard Of It

I'm sick of all the animadversion that you have
I'm sick
Telling me you're always so sad
I'm sick of you
And everything you do
I'm sick of me not ever telling you how I feel about you

And I'm sick
Of all the animadversion that you have
I'm sick
Telling me you're always so sad
I'm sick of you
And everything you do
I'm sick of me not ever telling you how I feel about you
It's how I feel about you...

Leave me alone
I'm sick of you
Don't call me asking to hang out
I got shit to do

I can finally say
I hate you
You are the girl
I never knew
Veronica, I hate you
You're in my way
We're so untrue
Veronica, I hate you

And I'm sick of you acting fake when you speak
And like my best friend after what you said to me
Just last week
I can't stand your fake fucking face
And all of your lies
And we all see through
Your stupid disguise

Leave me alone
I'm sick of you
Don't call me asking to hang out
I got shit to do

I can finally say
I hate you
You are the girl
I never knew
Veronica, I hate you
You're in my way
We're so untrue
Veronica, I hate you

You are the girl
I never knew
Veronica, I hate you
You're in my way
We're so untrue
Veronica, I hate you

You are the girl

I never knew
Veronica, I hate you

You're in my way
We're so untrue
Veronica, I hate you
