

# Never Shout Never, Hummingbird

I like you  
Girl you don't got nothing to prove, to me  
I know that times have been rough  
For the both of us  
But I'll pray for a change  
You see this world has lots to offer  
But in time we will go talking,  
If this love is what we say it is  
I'm sure we will go far  
And with a girl as sweet as you  
There's not much else I can do  
But fall for you  
I know that I'm a wreck  
And I know I can't breathe  
At the edge of my seat with each word  
As the months turn into years  
Just know that I will wait... here  
For you  
Cause I prayed for a change  
You see this world has lots to offer  
But in time we will go talking,  
If this love is what we say it is  
I'm sure we will go far  
And with a girl as sweet as you  
There's not much else I can do  
But fall for you  
For you  
For you  
For you  
This world has lots to offer  
But in time we will go talking,  
If this love is what we say it is  
I'm sure we will go far  
And with a girl as sweet as you  
There's not much else I can do  
But fall for you
