

# Neverending White Lights, Miss World

I'm miss world  
Somebody kill me  
Kill me pills  
No one cares,  
My friends

I'm miss world  
Watch me break,  
And watch me burn  
No one is listening,  
My friends

I've made my bed I'll lie in it  
I've made my bed I'll die in it  
I've made my bed I'll lie in it  
I've made my bed I'll die in it

Kill girls watch  
When I eat ether  
Suck me under  
Maybe forever,  
My friends

Now I've made my bed I'll lie in it  
I've made my bed I'll die in it  
I've made my bed I'll cry in it  
I've made my bed I'll lie in it  
I've made my bed I'll lie in it  
I've made my bed I'll die in it  
I've made my bed I'll cry in it  
I've made my bed I'll lie in it  
My friends
