

New Buffalo, Cheer Me Up Thank You

So it goes
The ordinary people they do not know
Who we are
Or what we're doing here
I want you to pick up the phone
And hum the dial tone
You see we should start
From the top
And look at what we've got

Wild flowers growing in the park
Summertime when it melts into dark
Dancing together at night until two
You're cheering me up and I'm thanking you
