

New Buffalo, Stay With Us

Oohh, you can feel
Tiny hearts
Beating out of time
And you wish
You were a man
But you're walking softly slowly
With a bun in the oven
And a candle in your hand

Stay with us a while
Stay with us a while
Stay with us a while
Stay with us a while

They're calling your name
But it's true
You never were to blame
And inside
You are a rock
But you're fading like a flower
With your hands in your pockets
And a tear drop in your eye

Stay with us a while...
