New Buffalo, This Is More

This Is More

(About Last Night EP)

This is all I remember One night's dating back through December

Golden moon in your eyes I'm under water Such a surprise

This is more Than desire I feel all Like I'm higher Than before This is more

You're on stage in a different town And the press say that they want some more

You deserve the award I'm under water Such a surprise

This is more Than desire I feel all Like I'm higher Than before This is more

This is more Than desire I feel all Like I'm higher Than before This is more
