

# New Edition, All For Love

The girl next door has taste and style  
She's lookin' so much better to me, yeah  
Her flavor is hot as she passes by  
Now I want her so much that it makes me scream, yeah

Our eyes collide, couldn't turn away  
She licked her lips and smiled at me  
When we find ourselves a little hideaway  
I knew that I was in for somethin' sweet

All for love  
I'm doin' things I've never done before  
All for love  
I'll try my best 'cause she's the one my heart beats for

We hold each other 'neath the starry skies  
I feel the rhythm of our hearts  
This is harder than the 4th of July  
And I want more of what she's got

I tell her things I always keep inside  
I let her look into my soul  
She says she loves me, can I squeeze her tight  
Tonight there ain't no letting go

All for love  
I'm doin' things I've never done before  
All for love  
I'll try my best 'cause she's the one my heart beats for

In a daze all time  
Dreaming about her day and night

All for love  
I'm doin' things I've never done before  
All for love  
I'll try my best 'cause she's the one my heart beats for

All for love  
All for love  
All for love

All for love  
I'm doin' things I've never done before  
All for love  
I'll try my best 'cause she's the one my heart beats for

All for love  
I'm doin' things I've never done before  
All for love
