

# New England, Don't Ever Wanna Lose Ya

You're driving home in a downpour  
Can't wait for you to walk through the door  
The rain is beating on my brain  
As the look on my face stays the same

Don't ever wanna lose ya (3x's)

And when I hear a speedy siren  
My heart gets so still just like dying  
Do anything to get you home safe  
Where could you be it's getting so late

repeat chorus.
