

# New Found Glory, Don't Let This Be The End

Yes your motives are tasteless  
But your mouth is so bittersweet  
When my worst fears surround me  
I'll just wait for you to sweep me right off my feet  
And your face turns blush red  
As you scream for forgiveness  
The mistakes you can't forget  
Is the regret that you'll live with  
(Hey!)

We're starting to break up  
We're starting to break up  
So please don't let this be the end  
I'm not afraid of the consequence  
I'll take the blame for it all  
I'm full and sick of the argument  
I'll just wait for my conscience to call  
(Hey!)

We're starting to break up  
We're starting to break up  
So please don't let this be the end  
We're starting to break up  
We're starting to break up  
We're starting to break up  
So please don't let this be the end  
This is something new (oh)  
And it's not what I'm used to (oh)  
This is something new  
And I just might end up losing you  
(Hey!)

We're starting to break up  
We're starting to break up  
So please don't let this be the end  
Please don't let this be the end  
Please don't let this be the end  
Please don't let this be the end  
Please don't let this be the end  
All yours, all that we've done (were starting to break up)  
Can't forget the places that you have been (were starting to break up)  
I know that I'll see you again (see you again)
