New Found Glory, Eyesore

Forget me not
Those weren't your words
I'm home haven't you heard the ring?
The sound of my voice
I know it isn't much
That's why I say your name
When I fall, when I hit the bottom
say your name
When I fall, when I hit the bottom

Girl, play on The boys will stay even if you're gone Go girl, play on The boys will stay even if you're gone

I've missed you
Those weren't your words
Seeing you became a charm
And everyday, I wish I could
Everyday...
I say your name
When I fall, when I hit the bottom
say your name
When I fall, when I hit the bottom

Girl, play on The boys will stay even if you're gone Go girl, play on The boys will stay even if you're gone

And I say, say your name When I fall, I say

Say your name When I fall, when I hit the bottom Say your name When I fall, when I hit the bottom

Girl, play on The boys will stay even if you're gone Go girl, play on The boys will stay even if you're gone
