

# New Found Glory, It Never Snows In Florida

distance means nothing to me.  
it only makes me want to see you longer.  
my words just like a mentioned kiss  
with every letter they are growing stronger.

days go by.  
feelings, they go on.  
unfortunately, without you  
it will never snow in florida.

it's best to take your time  
conversation cuts like glass.  
i'm the calm before the storm.  
i'm the second before the crash

i've been between myself for days.  
i'm the hero of the year.
