

# New Found Glory, Make It Right

Focus on me there is more to see  
But use discretion this ride isn't free  
I'll prove them wrong  
I'll prove them more wrong  
The more I sit here the more that I think

Every mistake I make from now on I'll turn around  
I'll make it, I'll make it right  
And every truth I fake  
I might hurt someone  
I'll make it, I'll make it more right

Pins and needles are up and down my spine  
I'll pull them out one by one  
I don't need it all  
Give it all away  
The more that I breathe it  
The more it seeps through  
It's a numbing feeling  
This is what I'll do

Every mistake I make from now on I'll turn around  
I'll make it, I'll make it right  
And every truth I fake I might hurt someone  
I'll make it I'll make it all right

Every mistake I make from now on I'll turn around  
I'll make it I'll make it right  
And every truth I fake  
I might hurt someone  
I'll make it  
I'll make it all right

I'll make it all right
