

New Found Glory, Over Me

Turn the music up
You sing right through the conversation
And Im just listening
Your missing chords
Ill take a hint
This is coming
And I need it to convince myself

You say youll never
Change or get over me
You claim youll never
Change or get over me
Over me, over me, over me, over me

Roll the window down
For a breath of air
Conversations
Will they ever end
Cause Im missing part
Can you take a hint
Is it coming
I just need you to convince me that

Youll stay forever
Never change
Or get over me
You claim youll never
Change or get over me
Over me, over me, over me, over me

Take for granted Ill be here
If you need me when you come around
Take advantage of me dear
Cause you need this when you come around
Need this now, need this now
So Im asking you to

Say youll never change
Or get over me
You claim youll never change
I know youre never gonna get
Over me, over me, (no you havent changed) over me, over me (no you havent changed)

You say youll never change
Or get over me
You claim youll never, no

I hope youre never over me
