

# New Kids On The Block, Close To You

La, la, la, la...  
La, la, la, la...  
Oh... yeah...

I know that it's hard  
(I know that it's hard)  
To see me go (To see me go)  
To see me standing  
So close to the door

I know it's hard when I'm far away  
But I promise you when I get back,  
I'll stay (I'll stay)...

Close to your hands, close to your legs  
Close to the way your body fits on the bed  
Close to your hips, close to your lips  
Close to the only one I can't resist  
Close to your laugh, close to words  
Giving you everything I know you deserve  
Close to you, baby,  
Close to your world, close to you

La, la, la, la... La, la, la, la  
Hey... Mmm

Baby, turn off that frown  
(Turn off that frown)  
Wipe off your face (Wipe off that face)  
You know I'm weak to it (So weak)  
And you're making me late

Turn off that frown and come over here  
(Won't you come over?)  
I'm gonna say this like I did before,  
Gonna make it crystal clear, when I'm...

Close to your hands, close to your legs  
Close to the way your body fits on the bed  
Close to your hips, close to your lips  
Close to the only one I can't resist  
Close to your laugh, close to words  
Giving you everything I know you deserve  
Close to you, baby,  
Close to your world, close to you

Now you're counting down the days,  
There's a picture of your face in my heart  
Before you know it, I'll be there  
Touching you in ways,  
So close in all the ways to time apart  
So close to you, girl

Close to your hands, close to your legs  
Close to the way your body fits on the bed  
Close to your hips, close to your lips  
Close to the only one I can't resist  
Close to your laugh, close to words  
Giving you everything I know you deserve  
Close to you, baby,  
Close to your world, close to you
