

# New Kids On The Block, Full Service

I see you pulling on up in your car  
And there's something on your mind  
You've been driving around the whole night  
Now you're pulling up next to mine

I'll lift the hood and look up under  
From the front and to the bumper  
Roll the window up and lock the door  
Cause I'm gonna bring rain and thunder

Bridge:

I'll fill you up-up (If you wanna get some)  
I'll pump you up-up (Cause I got the premium)  
I'll fill you up-up, pump you up-up  
'Till the tip-top, drip drop, don't stop, don't stop

Chorus:

You ain't gotta do it yourself, baby  
I'm-a give you that full service, you'll see  
You ain't gotta, gotta be nervous, nervous  
I'm-a give you, give you full service, service...  
You ain't even gotta get out of your seat  
I'm-a give you that full service, you'll see  
You ain't gotta, gotta be nervous, nervous  
I'm-a give you, give you full service, service...

I see you pulling up to the bar  
And there's something on your mind  
Like you've been hanging around the whole night,  
Just sittin' there sippin' on your wine

I'll pop the cork and fill the glasses  
I'll wipe it up if your drink splashes  
Send the check my way tonight,  
You don't pay, cause I wanna protect your assets

Bridge

Chorus

You ain't gotta, gotta get nervous, nervous  
I'm-a give you, give you full service, service  
You ain't gotta, gotta get nervous, nervous  
I'm-a give you, give you full service, service

If you could only see, how good it could be  
Anything you need, I'm-a step right up  
And it's on me, ain't no doubt I'm-a work it on out

If you could only see, how good it could be  
Anything you need, I'm-a step right up  
And it's on me, ain't no doubt I'm-a work it on out

Chorus 2x
