

# New Kids On The Block, My Favorite Girl

My favorite girl, oh, she's my favorite girl, don't you know,  
my favorite girl, oh, she's my favorite girl.

You walked into my life, your love was so new,  
and nothing will ever change my feelings for you,  
well, you were so far away, now I am close to you, girl,  
so let us run away, our heart that's waiting will stay.

My favorite...

There's so much I like in you I can't go on,  
I wanted a girl like you I've looked so long,  
girl, nothing will make us wrong, I know our love is too strong,  
let's leave the rest behind, our dreams ask what we will find.
