New Order, This Time Of Night

We all feel the same All pleasure nothing to gain I've known you from the start I've grown used to your wooden heart Now you know my name You search your empty brain in vain If you don't change your ways You'll end up here with me unraised (???) Without you they'll never know Without you my life won't flow Without you they'll never show Without you the night won't go Without you I'm left alone Without you I'm on my own Without you I lay in pain Without you I've gone insane

Now you must decide What good's a lie when you've nothing to hide Maps they'll never show They're dumb like you, they never know It's time we said goodbye Bury your head and silence your cry Know the feel of pain Join our world and play our game

Without you they'll never know Without you my life won't grow Without you they'll never show Without you the night won't go Without you I'm left alone Without you I'm on my own Without you I wrap my face Without you I wrap my face Without you I'm left alone Without you I'm on my own Without you I lay here in pain Without you I've gone insane

Whatever you may think of me Don't ever take my dignity [x4] Whatever you may do to me Don't crucify my dignity
