

# New York Rel-X, No Way Out

alone laying on the ground  
waiting to be found  
can't let out a sound  
alone and now way out  
(x2)

let me out, let me out, let me out, let me out.....

alone in this lonely place  
was i another case  
of the bomb that fell today  
why am i to blame  
alone in this lonely place  
was i another case  
of the horrors in our days  
why am i to blame

(Chorus)  
nananananana no way out  
far away, far from home  
nananananana no way out  
of this place, all i know

now i'm all alone  
tragedy has hit my home  
time has come and gone  
but still the damage has been done  
(x2)

let me out, let me out, let me out, let me out.....

(Chorus)

(Chorus)

nananananana no way  
nananananana no way  
nananananana no way whoa, whoa  
(x2)
