

New York Rel-X, Pop Queen

You say you wanna steer
You wanna be the best that is
You say you wanna be the one
You say you wanna see
You wanna be up way up top
You say you wanna steal the world

You say you'll own the next generation
Take a shot, make your mark
The time is right to rule the lot
You say you'll own the next generation

(Chorus)
Whoa - You wanna be, you wanna be
Whoa - The next pop queen
Whoa - You wanna be, you wanna be
Whoa - The next pop queen

And then the other stars will have to clear out of your spot
You say you wanna see them run
And all the envy and the fame just add to all you got
And all your charm will fool the world

You say you'll own the next generation
Take a shot, make your mark
The time is right to rule the lot
You say you'll own the next generation

(Chorus)

Glitter, flash and fashion
You've taken all they've got
You've lied about your passions
You've taken all they've got

You say you'll own the next generation

(Chorus x2)
