

Newcleus, Why

Why do we live this life of frustration?
Why cant this world unite as one nation?
We could do it too , if we wanted to and live as brothers
All wed have to do is to love..

Why do we have to fight one another?
Why do we have to destroy each other?
We dont have to do what we dont want to do lets stop the killing
Let peace be victor over pain..

Why dont you see the light of salvation?
Why dont you see the joy and elation?
You could see it too if you wanted to its the light of Jesus
For when I found Him , I found the way
You could find it too if you wanted to

They ask me, "why do you write such sad songs" , and I answer its the only way I have
You could find it too if you wanted to (X8)
