

Newsboys, Fad Of The Land

Got my genome mapping
Got my genome mapping
Caught my smart dog napping
Got my genome mapping

I'm a marinade
Of what's hot this summer
I'm an early comer
Bought a Gulf War Hummer

Every fad I feel it's force
Every trend I do endorse
Got my genome mapping
Caught my smart dog napping

I'm charging up the new, new thing
I'm answering a customized ring
I'm starting from the place you stop
I'm packing for an ego trip, hop

Stop the scam
You day traders in a traffic jam
Can the craze
All you players outta plays
Fight the man
All you suckers for a better brand
They got us living on the fad of the land

Get your pager on
Cuz you know my number
I'm a wireless wonder
Got thumbs of thunder

Soul daddies in a fire wire tumble dryer
Soul mamas broke the breaker
Soul children packin' Prozac pacifiers
Get your plug-in
We all need to plug in to our maker
