

Newsboys, Something Beautiful

I wanna start it over
I wanna start again
There's a new beginning
One without an end
I feel it inside
Calling out to me

It's a voice that whispers my name
It's a kiss without any shame
Something beautiful
Like a song that stirs in my head
Singing love will take us where
Something's beautiful

I've heard it in the silence
Seen it on a face
I've felt it in a long hour
Like a sweet embrace
I know this is true
It's calling out to me

It's a voice that whispers my name
It's a kiss without any shame
Something beautiful
Like a song that stirs in my head
Singing love will take us where
Something's beautiful

It's the child on her wedding day
It's the daddy that gives her awayfather
Something beautiful
When we laugh so hard we cry
Oh, the love between you and I
Something beautiful
