

# Newsboys, You're Still There

I lay on my bed  
I try to sleep  
my eyes won't close  
my mind so deep

chorus  
you're still there  
you still care -  
why do you draw me  
you never left me

time after time I've tried to make it alone  
I felt like my life was failure prone  
but you're still there  
you still care  
- you wait and see, you cry for me  
why do you draw me  
you never left me

and when my life it has come to a close  
I've run the good race and defeated my foes  
you'll be there and you'll still care  
you wait and see you cry for me  
why did you draw me, you never left me  
praise you
