

# Newton Faulkner, Ageing Superhero

Every time I think I'm going up  
I find out that I just slid back  
I got it all wrong you know I  
Feel younger than I did when I was younger on a backwards track  
I thought by now  
I could have figured it all out  
Instead I'm further back  
It feels kinda stupid but I  
Feel sixteen in my head but I guess it's only five years back  
But I won't see the signs  
It took so long but you were always on my mind, yeah

For all the times I tried to take a little time out for myself  
I'm just growing all alone again  
But I find in my mind that I'm not  
Time is running out and I just want to say I'm sorry now  
Before I'm all alone again  
And I'm broke and I'm cold  
The ageing superhero in me is tired  
'Cause he's lived too fast for too long  
And he still longs to be inspired

I feel old, feel broke, feel cold  
And I can't fight back  
It sounds so stupid I  
But it's gone, this train won't run, guess it must be the track  
But I won't see the signs  
It took so long but you were always on my mind, yeah

For all the times I tried to take a little time out for myself  
I'm just growing all alone again  
But I find in my mind that I'm not  
Time is running out and I just want to say I'm sorry now  
Before I'm all alone again  
And I'm broke and I'm cold

Dee do  
Dee do  
Dee da dee da dee da  
Dee da dee do  
Dee do  
Da dee do  
Dee da dee da  
Dee do

But I won't see the signs  
It took so long but you were always on my mind, yeah

For all the times I tried to take a little time out for myself  
I'm just growing all alone again  
But I find in my mind that I'm not  
Time is running out and I just want to say I'm sorry now  
Before I'm all alone again  
And I'm broke and I'm cold  
The ageing superhero in me is tired  
'Cause he's lived too fast for too long  
And he still longs to be inspired
