Newton Faulkner, Badman

Cities built on battle fields and shopping malls from meadows
Rivers redirected there?s no red, green blues or yellows
Take a little time to find a better place away from all the noise and the drinking
We could run away, we?ll find a better day not watching while the ship is sinking

Do you wanna hide inside your house?
Do you wanna hide inside your house?
Do you have a TV in your house?
Do you wanna hide inside oh/

Please just runaway with me
Oh please just give me fields and trees
Oh please we can find all we need
Oh please just give me fields and trees

The animals have gone away have disappeared forever
While humans build machines and start to think they?re oh so clever
Take a little time to find a better place away from all the noise and the drinking
We could run away we?ll find a better day not watching when the ship is sinking

Do you wanna hide inside your house?
Do you wanna hide inside your house?
Do you have a TV in your house?
Do you wanna hide inside oh?

Please just runaway with me
Oh please just give me fields and trees
Oh please we can find all we need
Oh please just give me fields and trees

Please just runaway with me
Oh please just give me fields and trees
Oh please we can find all we need
Oh please just give me fields and trees
