

# Next, Freak In Me

(Intro)

Take your clothes off

Lay down

Please

Freakin' me

And I wanna do it with the lights on

I wanna see your body

Come on my freak

Oh, do you like when I'm doin' those things

Racin' back and forth in your love lanes

Well let me unbutton your jeans

(Put a towel on the bed so we don't leave no stains)

I wanna do

Things to you

Things you like

I will try

Let's start tonight

I'll do it right

I'm goin' insane

I need your love things

Chorus

Can I take off your shirt now baby

Can I take off your pants now too

Can I slide off your Victoria Secret

Now hush, let me just look at you

Wanna lay you down and touch your body

You're so sexy, you tie me on shorty

Got you hopin' and you got me so horny

It's just the freak in me

Hey, can I tailor your birthday suit

Clothes off, I'll take off mine too

I got major things I wanna do

(Knock knock, it's me, let me inside of you)

Lookin' in my eyes

Read my mind

Search and find, feel me rise

Take your time, it's alright

Just say the word so you can be

Chorus

Come here baby

You know what I wanna do to you

Everything

Now that we're alone

Promise you will do those things

Do me

To me

Girl come on (Oh, Tweety sing)

There's nothing wrong

Setting your mind and body free

Baby love me

It's the freak in me

Chorus Fade
