

# NF, Just Like You

Just in case my car goes off the highway  
Or the plane that I get on decides that it's my last day  
I want you to know when you're alone and you feel afraid  
You're not the only person in the world that isn't okay

There's millions of us just like you, like you, like you  
Just like you, like you

There's millions of us just like you, like you, like you  
Just like you, like you

It's strange the way the mind can wander  
But also stop to gossip  
And chat with memories that you and me aren't really fond of

Maybe you're out to find love  
Maybe you lost who you was  
Maybe you're just like me and feel the need to stay in your rut

'Cause if you left it  
You might feel like you're no longer you  
It's so impressive  
The way the mind can play with the truth

It's interestin'  
That nobody can walk in your shoes  
But still relate and feel the same so in a way, guess we do

You ever think about what it would be like  
If the clouds were gone and you could see light  
If the door was open would you take flight  
Or just close the curtains up and stay inside

Take a walk with me, take a risk with me  
I'm scared too and it gets so tempting  
When you're so empty, to disown everything you hold  
Dearly, when you know

Clearly, You've been so  
Buried, in your own  
Fairy Tale, the soul's tearing bunch of holes in me, I relate to it  
But in case you been thinking no one does

Here's a great theory  
Throw a Hail Mary  
Let ya' mind fly  
To the sunrise

Could be so scary  
Make your faith vary  
Feel the pain glaring  
But the weight carried  
Ain't in vain hear me (Hear me)

Just in case my car goes off the highway  
Or the plane that I get on decides that it's my last day  
I want you to know when you're alone and you feel afraid  
You're not the only person in the world that isn't okay

There's millions of us just like you, like you, like you  
Just like you, like you

There's millions of us just like you, like you, like you  
Just like you, like you

So often I feel desperate  
I think my heart's infected  
How about yours? How about yours? How about yours? I guess if

You feel the best when  
Your life is hectic  
You might be destined  
To stay defective  
So join the club, it ain't that hard to get in

It's hard to leave though  
Look at the guest list  
I bet that  
Your name is on it, don't believe me? Check it

See dead ends  
In life we come to tend to raise some questions  
Suggestion  
Know that your feelings might give wrong directions

Infested  
Yeah, with the feeling of failure  
Let it take over your body it makes ya'  
Question the life that you have situations  
You might have enjoyed, become nothing but dated

Old and forgotten but what would you say if  
I told you that there was some hope we could make it?  
I know what you're thinkin', I'm thinkin' it too  
Could you really improve and be something worth savin'?

See, I could pretend like I have all the answers  
But none of us do, it's the reason we battle  
Convincing yourself that you don't really matters  
Like feeding a cancer and letting it travel

To every part of you but what if we did  
The unthinkable and cancel our trips?  
What's achievable depends on the risk  
So pick up your chin and listen to this

Just in case my car goes off the highway  
Or the plane that I get on decides that it's my last day  
I want you to know when you're alone and you feel afraid  
You're not the only person in the world that isn't okay

There's millions of us just like you, like you, like you  
Just like you, like you

There's millions of us just like you, like you, like you  
Just like you, like you

Yeah

Everybody falls sometimes  
Just remember that that's alright, it's the  
Rainy days that give us love for the Sun  
And if it isn't, I guess I'll be fine believin' it does, oh yeah

Everybody falls sometimes  
Just remember that that's alright, it's the  
Lows in life that make you cherish the highs  
And if isn't, I guess I'll be fine believin' a lie, ay

Just in case my car goes off the highway  
Or the plane that I get on decides that it's my last day  
I want you to know when you're alone and you feel afraid  
You're not the only person in the world that isn't okay

There's millions of us just like you, like you, like you  
Just like you, like you

There's millions of us just like you, like you, like you  
Just like you, like you
