

Niall Horan, If You Leave Me

Met you in a dream
Chased you through the street
Turned around and you were gone
Woke up in a daze
Moonlight on your face
My heart was racing at the thought

If you leave me
Oh I think that I just might lose it completely
Yeah
If you leave me
Hope you know that you're sentencing me to a life on my knees
Don't know who I would be
If you ever leave
If you ever leave

I'm in too deep
Swimming in your sea
Tell me where you want to go
I don't wanna change
Have it any other way
But promise that you'll stay this close

If you leave me
Oh I think that I just might lose it completely
Yeah
If you leave me
Hope you know that you're sentencing me to a life on my knees
I don't know who I would be
If you ever leave
If you ever leave

Waking up with you gone in the morning
Going to sleep with you not here at night
Oh these feelings they would just be so foreign
Can't you stay for the rest of my life?

If you leave me
Oh I think that I just might lose it completely
Yeah
If you leave me
Hope you know that you're sentencing me to a life on my knees
I don't know who I would be
If you ever leave
If you ever leave
If you ever leave
If you ever
