

# Niall Horan, On a Night Like Tonight

Wantin' your summer skin pressed on mine  
Fallin' like rain, ripplin' on by  
Supermoon watch it dance in your eyes  
My wildest of dreams, takin' on a new life

If it's this good way down here  
Then what's it like  
Up there high in heaven

On a night like tonight  
Are we just two stars passin' by?  
Wanting your summer skin pressed on mine  
Wanna know what your lovin' tastes like  
On a night like tonight, yeah  
Yeah

Innocent kisses now hearts on fire  
Got me so high, walkin' on a wire  
Yeah, baby you, baby you blow my mind  
Tell me anything you like except for goodbye

If it's this good way down here  
Then what's it like  
Up there high in heaven

On a night like tonight (on a night, on a night, on a night)  
Are we just two stars passin' by? (passin' by, passin' by, passin' by)  
Wanting your summer skin pressed on mine  
Wanna know what your lovin' tastes like  
On a night like tonight (on a night, on a night, on a night)  
Yeah  
Yeah

Wanting your summer skin pressed on mine  
Wanna know what your lovin' tastes like  
Wanting your summer skin pressed on mine  
Pressed on mine, pressed on mine

Wanting your summer skin pressed on mine  
Wanna know what your lovin' tastes like  
Wanting your summer skin pressed on mine  
Pressed on mine, pressed on mine
