

Niall Horan, Save My Life

Eyes are bloomin'
Floor is shakin'
Walls are movin'
Feelings changin' now

So I'm rolling through it
Like I'm floatin' seven feet above the ground
As you float up to me, I just gotta tell you now

Ever since you walked in,
I'm seein' a new light
Ever since you walked in,
It's startin' to feel like
You might save my life
You might save my life
I've been dyin' for you darlin'

And it gives me shelter
But leaves me open
Something interstellar
Where my mind is goin' now

Got me on the ceiling
When you say my name I like the way it sounds
I'm afraid to feel it, but I just gotta tell you now

Ever since you walked in,
I'm seein' a new light
Ever since you walked in,
It's startin' to feel like
You might save my life
You might save my life
I've been dyin' for you darlin'

You might, you might save my life
You might, you might save my life
You might, you might save my life
Save my save my save my...
You might, you might save my life
You might, you might save my life
You might, you might save my life
Save my save my save my...

Ever since you walked in,
I'm seein' a new light
Ever since you walked in (walked in)
It's startin' to feel like

You might save my life (you might)
You might save my life
I've been dyin' for ya darlin'
